Good Morning,

You may have received an e-mail regarding the on-line safety training. This is either because an additional module was added to the training or there was a change in the subject matter that you are required to take. You only need to complete the module(s) that you are missing. In most cases this is "Shipment of Dangerous Goods". Just logon and finish this module. Your training anniversary will not be affected by this change

Please let me know if you have any questions.

Howard
